

Mission statement:

ICC Hong Kong is an authoritative voice in Hong Kong SAR, China, driving policy, standards, and innovation in international trade and finance, as well as arbitration and other forms of alternative dispute resolution.

Building on Hong Kong's role as a global trade and financial hub, we champion the digital transformation of trade finance, enabling faster, more secure, and inclusive cross-border commerce. Through thought leadership, advocacy, and collaboration, we seek to empower businesses to harness the latest digital trade solutions including blockchain, smart contracts, and AI-driven solutions.

Additionally, riding on the strength of HK's legal system, through education and training, we strive to position Hong Kong as a pre-eminent arbitration and dispute resolution hub, facilitating efficient dispute resolution. We are committed to advancing best practices, including shaping the future of international arbitration and alternative dispute resolution, through cutting-edge expertise, cultural inclusivity, and unwavering integrity.

Our mission is to promote a dynamic business environment that both advances international connectivity and supports economic growth of businesses, whilst purposefully driving Hong Kong's leadership in the global economy and community.

Keith, Sebastian, and Shirley
